## MINING NEWS

### Peery Brothers Receive a Report on Jar bidge

The Peery brothers of this city are interested in the new mining camp of Jarbidge, Nevada, having a stock ranch within five miles of the place. Horace Peery visited the ranch last fall and in doing so passed over the Jarbidge country. He was strongly impressed with the formation, and says that at that time he thought the country would yet be known as a rich mineral section. Since the "boom" there the Peerys have become interested in the outcome of the country from a mining point of view, and they now have a representative on the ground looking out for their interests. About three weeks ago they employed Ben Luce, an experienced miner of this section of the country, and one who has had much to do with the mining camps of Nevada, and sent him to the Jarbidge country for the sole purpose of looking into the mining conditions there. He has reached the camp after a long and tedious journey, attended by hardships incident to trav-eling over mountain roads in the winter season. A letter received from Mr. Luce this morning is of interest to those engaged in mining, and particularly those who have an eye on Jarbidge. It follows:

"I have sampled the 'Bourne strike' from top to bottom, but it likely will be two or three days before I can get my assays out. There are three assay outfits here, but none of them are set up yet. The appearance of the Bourne strike is far better than I expected, and, if the average in values is good, it is the biggest surface showing I have ever seen. As far as I have been able to determine, the sample the croppings are from 50 to 60 feet wide and 200 feet long.

"The vein is not a 'seam' propo- sition, and I believe the values are well distributed throughout the entire ledge. They have a tunnel on the ledge and are in, under cover, 20 feet. The face of the tunnel is five feet wide, all vein, no wall, as yet. I have collected samples across and around the sides, giving me an average of seven feet. I also sampled the surface for 50 feet and took an average of six feet of parallel ledge running east 400 or 500 feet. Am going to the 'Arizona group' and the 'Pick and Shovel' claims today, both of which, I am told, have big showings.

"There was another heavy snow last night and it is snowing this morning. It is almost impossible to get around on account of the deep snow. The mountains, too, are almost straight up and down. About the only thing one can see of the mineral formation on the surface of the ground is where the dikes or ledges crop above the deep snow, or where a little work is being done.

"They are a little bit crazy on prices here, but I have been successful in getting a line on some things and think I will be able to find something worth while in the near future. Everything is largely a guess insofar as figuring on locations are concerned and nothing of a permanent nature can be fixed upon until the snow melts. I have material for a story title, 'I will beat Dr. Cook's a Jarbidge mile.'"

"Dated February 8th."

## ELY CENTENNIAL HAS MORE ORE

Force Increased and Second Shaft Reveals More of De-sired Stuff.

Ely, Feb. 12.—The Ely Centennial company, in which Samuel Newhouse is a director, has increased its force to twelve men, and has commenced developing the extreme eastern portion of its estate, not far from the Ely Resurrection property.

The added force has been put to work cleaning out some ancient workings that were apparently dug at least twenty-five or thirty years ago, and that had been completely filled with debris and earth carried by the spring floods.

These new workings are 1300 feet east of the shaft in which the com-

pany already has fifteen feet of first class ore from wall to wall, and 500 feet east of the tunnel, in which good values also are found. The ancient workings were found by Superintendent Sol Snyder in tracing the mineralized outcrop that extends across the company's estate from east to west. The mineralization already shown in the new hole promises good results with depth.

Following the big strike in the Ely Centennial shaft last week, the Ely Calumet, adjoining the Ely Centennial began the consideration of plans for sinking a shaft on the Grand Deposit claim. These plans are now complete and J. K. Turner, engineer in charge, has put a force of men on the new shaft. It is believed this shaft will tap the ore ledge opened recently by the Centennial people in their shaft.

These properties are almost within the city limits of Ely, and their proving good will be a big uplift to the camp.

## VOTE OF THANKS

The Ogden Caledonian society ex-tends a vote of thanks to Dr. A. S. Condon for his able and masterly ad-dress on the anniversary of the poet, Robert Burns, on Jan. 25th.

(Signed) CALEDONIAN SOCIETY.

## NO YELLOW FEVER IN THE CANAL ZONE

Washington, Feb. 12.—From having been a hotbed of yellow fever a few years ago, Panama has become so free from that disease that an isolated case becomes of news interest to its citizens. Formerly it was taken as a matter of course that many cases could be found at any time. A feature of a recent issue of the Canal Record, however, was an account of a young Englishman who had contracted yellow fever at one of the South Amer-ican ports, got by the Colon quaran-tine, and was then in hospital.

The next issue of The Record, which has just reached Washington, in-dicates that there has been no spread of infection and that none is antici-pated, the medical authorities having exercised every possible precaution.

## FATALLY WOUNDS A BOY.

New York, Feb. 12.—Seeno Orazio took the part of a big brother so seriously last night that he walked up to Francesco de Rossa, 16 years old, and shot him through the body as he stood on the sidewalk among companions.

The boy, who will not live, had got the better of a fist fight with Orazio's younger brother earlier in the day. Orazio is under arrest.

## CHANGE IN 25th, 22nd, AND WALL AVENUE CAR SCHEDULE IN EFFECT SUNDAY, FEBRUARY 13th, 1910.

### 25th STREET LINE

First car will leave East 22nd street at 6:15 a. m. and every fifteen (15) minutes thereafter until 12:00 mid-night.

### WALL AVENUE LINE

First car will leave 32nd and Wall avenue at 6:15 a. m. and every fifteen (15) minutes thereafter until 12:20 a. m.

Giving seven and a half (7 1/2) minute service from Union Depot to Washington avenue and five (5) minute service from Washington Avenue to Union Depot.

OGDEN RAPID-TRANSIT COMPANY  
By J. W. BAILEY, Supt.

## STATE NEWS

### BODY OF SUICIDE IS UNIDENTIFIED

Salt Lake, Feb. 12.—The body of the man who committed suicide by jump-ing from the top of the Luna theater on Third South street on Tuesday night, when officers of the law were after him, has been identified as that of Arthur Johnson, who was employed as a dishwasher at the "Kid" Bray restaurant for a short time last De-cember. The identification was made last night by Mr. Bray, Richard Jacob-son, a cook at the restaurant, and Charles Merchant, a waiter at the same place. The three men visited the undertaking establishment of O'Donnell & Co. last night and said that they were satisfied that the dead man was the man who had worked at the restaurant, and who gave his name as Arthur Johnson. It is said that during the time the man was em-ployed at the Bray restaurant he told some of the other employees that his home was in Butte, Mont., and that he and his brother had been running a pumping plant in Nevada, but that be-fore working at the restaurant he had been employed as a dishwasher at a restaurant in Bingham.

The officers are making an effort to communicate with some one in Butte who might know the man.

The body of the man who commit-ted suicide in a rooming house at 156 1/2 West South Temple street two weeks ago still remains unidentified, despite every effort of the officers and the undertaker.

## PROPOSE PURCHASE OF WOOLEN MILLS

Provo, Feb. 12.—J. H. Bierup of Chicago, representing the National Farmers' association, is in Provo with a proposition to organize a company to control the Provo woolen mills. If the proposition goes through the as-sociation he represents will have the controlling interest in the new com-pany and the rest will be owned by local pa. ple.

The company proposes to use the factory to supply a long string of its stores with woolen goods. The propo-sition is said to have the backing of the National Wool Growers' associa-tion. The new company will be capi-talized at \$1,000,000. Old stockholders will be taken care of and given ac-ents on the dollar for their stock. An option on the mills for \$75,000 has been secured.

## OGDEN COMPANY IS BEING INVESTIGATED

Salt Lake, Feb. 12.—Inquiries into the condition of the Western Fire Insurance company of Phoenix, Ariz., with western department headquarters in Ogden, have been received at the office of the state insurance commis-sioner of Utah.

So far as has been ascertained by the Utah department, the Western Fire Insurance company has practically nothing except a bunch of blotters, which are being distributed about the state in large quantities. The capital and surplus of this company, which are alleged to be \$500,000 and \$125,000 respectively, have not been located. The Utah insurance department is making an effort to get at the bottom of the workings of this concern, and the Idaho department will be advised along these lines.

The Western Fire company, it is said, has been attempting to operate in this state without the required li-cense.

### NOTICE.

All members of Dix-Logan post No. 3, G. A. R., are requested to meet at Union Labor hall at 7 a. m. today, Feb. 13, 1910, to attend Lincoln's birth-day services at M. E. church.

W. N. PEIRCE, Commander.  
GEO. T. TERRY, Adjutant.

## HOGS AND VEAL

We are paying for fat hogs as fol-lows:

Hogs from 200 lbs. up, per 100 lbs., \$8.25.

Hogs from 160 to 200 lbs., per 100 lbs., \$8.00.

Hogs from 125 to 160 lbs., per 100 lbs., \$7.75.

We receive hogs daily.

Anybody who prefers dressed weight on hogs may bring them in on Tuesdays and Fridays, between 7:30 and 10 a. m. We will then slaughter them while you wait and pay \$11.25 per 100 pounds dressed. On either of these days you may choose whether you want the live weight price or \$11.25 dressed.

We pay for

Fat Veals, from 70 to 125 lbs., dressed weight, 11 cents per lb., and received them daily. You may bring them in either live or dressed.

Access to our plant is now con-venient since the construction of the viaduct.

## Ogden Packing & Provision Co.

VAUDEVILLE PLAYERS LOST IN BIG SHIP WRECK

San Francisco, Feb. 12.—Messrs. Drona and Delyom, two of the three vaudeville players mentioned in Mar-tinez dispatches as having come from San Francisco and are supposed to have perished in the French steamer General Chaney disaster, are identi-fied by a local theatrical manager as Drona and Green, a pair of club swingers, who some time ago played vaudeville engagements here and in Oakland. The manager recently re-ceived a post-card from Drona, in which the writer said he was going to Europe.

Nothing is known of Elsie Henry, the third vaudeville performer men-tioned in the wreck reports.
